ROCKET MAZE

Who reaches the rocket? Hercules or Sheila?

Hercules

Sheila
THE STORY

Re-tell the story to a friend from memory using the pictures to help you!

The Beginning

The Middle

The End
SORTING THE ANIMALS

Working with a partner, who do you think is the:

Biggest ☐ Smallest ☐

Tallest ☐ Shortest ☐

Fattest ☐ Thinnest ☐

Fastest ☐ Slowest ☐

Loudest ☐ Quietest ☐

Heaviest ☐ Lightest ☐

Widest ☐ Narrowest ☐

Who do you think is the most colourful? ___________
JOIN THE STARS

In the picture below there are three groups of stars, called constellations, that have the shape of an animal. Join the stars below to show each of the animals clearly.

Now it is your turn.
Think of an object (like a spoon) or another animal (like a rabbit) that would make a good constellation. Outline the object or animal by drawing stars on this grid.

Ask one of your friends to join the stars on your grid.
Design your own rocket to get Sheila to the Moon before Hercules!
